

## **Many Times**

Know how to compromise  
Where to draw the line  
And everything will be fine

You, you're so into yourself  
It's taken all your years  
To realise there's nothing else

Hey can't you see the light  
Shining down on you  
Like everybody does

Coz here we are till who knows when  
You might not get to count to ten

Insane all this time  
Have I been insane all this time?

**Many times we made the grade  
Many times we drift and fade  
Wishing all this escapade away**

## **Kurt's Ballad**

It's not like me to say it's fine  
When everything is just so fake  
But as you said, it's now your turn  
To make it shine along the way

Can you hear me calling out  
For all the things I never had before?

**Come as you are with your beautiful ways  
That's all we need  
Coz every day we're searching for  
A miracle way, that's all we need**

It's not like me to speak my mind  
When everyone disturbs my view  
But as you were, always heard,  
You changed the plan yet to be made

Can you hear me calling out  
For all the things I never had before?

**Come as you are with your beautiful ways  
That's all we need  
Coz every day we're searching for  
A miracle way, that's all we need**

Coz every day we're searching for,  
Coz every day we're searching for,  
The things we never had before

## **Sweet Melodies**

It's all in your head  
This comfort you get and its sweet melodies  
Just in case you wait  
It grabs you deep inside and drags you along

You may consider to fall down on your knees and pray  
You may also feel that it's better to rush into sweet melodies

**With all those crazy people all around  
My own ignorance is bliss  
With all those crazy people all around  
Which make my life so easy**

It's happening again  
It's bombarding us with its fake rays of light  
And upon the passing days it strokes us and guides us through a better life

**With all those crazy people all around  
My own ignorance is bliss  
With all those crazy people all around  
Which make my life so easy**

## **Viciously**

I won't try to stop you leaving me  
Coz girl that ain't my way  
And I won't beg you no  
Coz begging ain't the kind of game I play

Standing on the outside, tell me how you're feeling  
Bruised from all the games you play, play, play

**You spin your line down to me  
But I don't mind  
Coz I'm better without you,  
Yeah you, you sunken soul  
I'm sorry that  
You turned it upside down  
You turned it inside out**

I'm driving down this highway  
God knows it's been hard to turn away  
I dive into the ocean  
Praying for some kind of healing spray

I'm on the outside, that's how I'm feeling  
Hurting every time I say, say, say

**You spin your line down to me  
But I don't mind  
Coz I'm better without you,  
Yeah you, you sunken soul  
I'm sorry that  
You turned it upside down  
You turned it inside out**

## **Disintegrate**

Numb too dumb to speak  
Have I gone too far?  
In this burning heat  
Underneath this blazing star  
I can barely recognise the shapes that  
Meant so much to you

**And the world turns round  
And you fall down, down, down, down**

Is it true  
I suck away the blue  
From your beautiful sky?  
I'd rather die than take from you

**And the world turns round  
And you fall down, down, down, down**

## **In my Head**

Forgetting the hours  
Struck down but looking up  
In your direction

Blinded with eyes wide  
Stand back in front again  
For new directions

But now I can hear a rose  
So let me go and find

**In my head I can see so far away  
I can hear the secret sounds  
I can fall in love again and again**

Forgetting the hours  
Struck down but looking up  
In your direction  
Stand near a mountain  
Flagging a highway down  
In all directions

But now I can hear a rose  
Say let it go and find

**In my head I can see so far away  
I can hear the secrets sounds  
I can fall in love again and again**

If you get me the power  
I'll flag you a highway

## **Chill Pill**

Never wish your days away  
Blast yourself up in every way  
Save yourself from this so called isolation  
Shake yourself up and down all day

Coz I consider this life  
To give us a hell of fun  
And I want for more  
And I want some more

**Chill out next to me for a while  
And let it all happen indeed  
In my life there's no ground  
And I love the sky upside down**

Take yourself to the highest highs  
Rain is just a dark cloud passing by  
Fall into grace, remove yourself from this solitary race  
You've been going way too fast

**Chill out next to me for a while  
And let it all happen indeed  
In my life there's no ground  
And I love the sky upside down**

## **Saved by the Day**

And now I don't believe the things you say  
Coz I don't wanna dream anymore  
Coz you, you live in the sky  
And me, I fly,

**Today I feel so alone  
And no one sees it's a tragedy  
Coz I'm saved by the day**

And now I'm fiddling with the things you said  
Coz I don't wanna dream again  
Coz you, you live on the ground  
And me, I don't,

**Today I feel so alone  
Aand no one sees it's a tragedy  
Coz I'm saved by the day, saved by the day,  
This crystal glimpse is gone  
And I won't dream of another one  
Coz I'm saved by the day, saved by the day**

## Neverlast

Good times never last my friend  
You've got to take it in and smile  
Slowly watch it slip out of your hands  
It's all you get my friend

Good times never last you know  
You've got to take it all in time  
Give up your comfort and your daze  
It's all we get, it's all we get

And from now I feel the pain  
But everything you wanna say only takes us half the way

**It's always in my mind and every word we speak  
Will never comfort me  
It's always in my mind and every time we speak  
Will never comfort me**

Good times never last you know  
You've got to get it on your side  
Rage is the mirror of your pride  
It's all you get, it's all you get

And from now I feel the pain  
But everything you wanna say only takes us half the way

**It's always in my mind and every word we speak  
Will never comfort me  
It's always in my mind and every time we speak  
Will never comfort me**

It's always in your mind and in your soul  
And I'm the same  
Coz time is on your side and in your heart  
And I'm the same
